Below image shows MTB single track near junction #3 and is different to the shorter section on above map (Section #3 to #4), which is an old 4wed track.

MTB track has pink ribbon marking it but now signage.

Very obvious trail but gets little use now. Be careful of saplings / trees across track. Go down only.

Start of MTB single track near point #3

#0 on MTB map above. Turn right off road up Ben Lomond at this point. Entrance to MTB / 4wd track. First section on rocky with creek crossings.
